## SENATOR SCOTT WAS PRESENT

At the Meeting and Was Selected as a Member of the Committee. Dick's Resignation Received and Accepted-Heath to Resign as Assistant Postmaster General

CLEVELAND, O., July 13,-An im portant political conference attended by a number of prominent Republican isaders, was held at Senalog Hanna's office here to-day. The meeting was called by Mr. Hanna to discuss and decide upon the personnel of the new executive committee, and to name a secre tary of the national collimittee to ruc ceed Charles F. Dick. Bluc Before the conference closes it is also

probable that a number of the nationa committee to fill the vacancy caused by the resignation of George B. Cox, o

Ohio, will be chosen. Among those present at the conference were Chairman Hanna, Cornelius Eliss, Perry S. Heath, Charles F. Dick, Henry C. Payne, Charles Dawes Myron T. Herrick, R. C. Kerens, N. B. Scott, Graham Stuart, Harry S. New

Dick's Resignation Accepted.

General Charles F. Dick's resignation as secretary of the nailboar Republican committee was received and accepted. Messrs. Hanna, Heath and Priyne were named as a committee to draft resolutions concerning the resignation of General Dicking Mr. Hanna stated that the personnel of an advisory committee was under consideration but that it would not be announced for ten days or two weeks. It was also said that all of the members of the old national committee of 1896 requested President McKinley to consent to the resignation of Mr. Heath as first assistant postmaster general in order that he might become the secretary of the national committed. The Presi-dent, it was added, strongly demurred proposition until, yesterday when he finally gave his consent. Mr. Heath will tender his resignation

to the President in about a week or ten

At noon Senator Hanna announced that the following named had been chosen as members of the national executive committee:

Graham Stuart, Illinois; Henry C. Payne, Wisconsin; Richard 'C. Kearens, Missouri; J. H. Manley, Maine; N. B. Scott, West Virginia; Predetick S. Gibbs, New York: Franklin Murphy New Jersey: Myron T. Herrick, Ohio. Harry S. New, Indiana.

## NO GOLD DEMOCRATIC TICKET.

They Have Affiliated Themselves With One or the Other of the Great Parties.

NEW YORK, July 13 .- A special to the Times from Washington, says: The gold Democrats will not put ticket in the field this year," said W. D. Bynum, of Indiana, chairman of the gold Democratic executive committee in

1896. We cannot get our electors on the otheral ballot in New York because no votes were cast for the party candidate for governor in 1898, and the state law requires that a certain number of votes shall have been cast for state officers in the preceding election before the nominees of any party can go on the official ballot in the pending contest. Our party organization in New York was abandoned two years ago, members of our party, egvoting other

"The only way we car have our can didates for electors put on the official ballot is by petition of a certain nuc. ber of voters in each county, an expresent case, as the members of the gold Democratic party have affiliated their funds, and there was much externselves with one of the other of the old parties on the new issue. New bank would not open. York is the one state where our ticket might do the Republicans some good, and if we cannot get in on the official ballot there is little use of nominating a national ticket. The new Australian ballot laws in other states/also operate against independent movements."

In consequence, cattle are dying by the thousands, and their shrunken frames dot the desert' country of Pima, Pinal, Santa Cruz, Yuria, Cochise and parts of Maricopa counties. The loss to owners of herds cannot be computed as in their present gaunt condition no market can be found. Rarely in the history of the territory had the so scarce. Crops of aira, barley and wheat between Florence and Casa Grande, as well as on the Indian reservation at Sactor, where the Pimas dwell, are beyond hope. Added to this, is the destruction of timber by the forest fires, which continue to rage in the Santa Catalina mountains.

Why One Young Woman Threw Hers Into the Gutter in Wrath.

Kansas City Star: She was fair of face and-well, say, twenty-five.

Her clothes were neat and cool. Pin-ned to the bosom of her shirt waist was one of the large buttons now being dis tributed by the bureau of information for the accommodation of strangers visiting this city during the session of the Democratic national convention This large button bore the talismanic words, "Ask me."

When she tripped into the car and took a seat the men stared at her. Tawomen did likewise. Opposite sat a middle-aged woman with her sevenyear-old daughter.

The child stared at the large button on the shirt waist, then, pointing to it asked, "What is that, mamma?"

To-day's stock market was but a dull and uninteresting affair and marked

the further relapse from the manipulated rise of the earlier part of the week which came into evidence yesterday. Selling to take profits was the order of the day and the bears put out some fresh short lines. That neither of these operations was on a very extensive scale is sufficiently shown by the day and the greater part of even these small dealings took place in the fore-noon, when the bull interests were still making futile efforts to continue the advance. The efforts were not put forth in the opening transactions and the sympathetic depression from foreign markets was allowed its full effect. The weakness there was due to renewed fears regarding the Chinese situation and to the mishap to the British force in South Africa. The effect here was purely sympathetic and when it was seen how small the selling for London account was, the bulls braced their energies and attempted to resume control of the market. profit taking which met the advance when last night's level of prices was approached, discouraged the attempt and the market was allowed to lapse into an almost lifeless state. The sharp break in the wheat market, which might be fairly construed as indicating a more hopeful feeling regarding the erop, was powerless to sustain the stock market. Small as the offerings were, they were sufficient to drive prices sharply below last night's level. grangers, southwesterns and some of the southern railroad stocks were most notably affected, but there were examples of weakness all through the list both of railroads and specialties. The steel stocks became notably weak late in the day on a growing apprehension that the general reaction in both curtail the consumptive requirements for iron and steel, whatever the ultimate basis of prices may be. A further advance in the sterling exchange rate, the hardening of the London discount rate and the continued drain on the gold reserves of the bank of England led to the opinion among International exchange houses New York to Paris are likely to be made next week. At the same time today's reduction in the discount rates of the imperial bank of Germany and a further relaxation on the private discount rate in Berlin makes it probable that Berlin has been further reducing its loan obligations to New York. A liquidation of foreign borrowing accom-panied by an export movement in gold would present an astonishing state of affairs. Estimates of to-morrow's bank statement are rather tentative in view of the discrepancy last week between

Breadstuffs and Provisions.

CHICAGO-Weather conditions in tuenced all the grain markets to-day. Reports of improvement in the northwest and the raising of the figures on the estimated yield were the principal

the estimated yield were the principal factors in a decline of 1½01½c in wheat. Corn closed ½0½c lower and oats ¼0¼c lower. Provisions were steady on light receipts and good cash demand and closed 2½0½c higner.

The opening tone of wheat was rather strong, September starting at an advance of ½0½c at 50½00½c. This was due entirely to pit trading, local speculators being influenced by the fact that foreign markets did not show an adequate response to yesterday's decline here and to the seriousfact that foreign markets did not show an adequate response to yester-day's decline here and to the seriousness of the Chinese situation. The strength disappeared almost immediately. Reports from the northwest told of an improved condition of wheat as a result of rains and the cooler weather prevailing and the changes in the crop given out to-day in the Trad' Bulletin were considerable. This quickly changed the balance of trading in favor of the bears. The northwest sold considerably and the steady decline in the price finally discouraged longs and resulted in considerable liquidation which was jept up with more or less steadings and the season there was a slight improvement, in tone, caused principally by covering by northwest traders, who had put out wheat carlier in the week and who had good profits in sight. The closult, however, was heavy, though at a little better than bottom price. Choice soid down to 73c, but recovered to 73c, inter on buying. The close was at 734g/734c. Northwest receipts were 142 cars, compared with 192 last week and 483 a year ago. Chicago receipts were 57 cars, 13 of contract grade. Total cars, compared with 102 last week and 483 a year ago. Chicago receipts were 57 cars, 13 of contract grade. Total primary receipts were 509,000 bushels, against 785,000 bushels a year ago, New York reported fifty loads taken for export. Scabbard clearances were equal to 215,000 bushels. Corn was strong early, influenced by reports of continued weather in Knass and Nebraska and absence of rain with decidedly pessimistic grop reports. Quening prices

Some liquidation of was ladured enough profit taking to keep prices on the down grade for the rest of the session. Some liquidation of was ladured by predictions of rain in the drought stricken districts. Country offerings were light. The scaloard reported sixty loads taken for export. Local receipts were 635 cars. September anged from 45c to 43% 643% c and closed 42% c and closed 42% c local receipts were at 43%. The oats market followed closely the fluctuation of corn. The opening prices were slightly higher, but the market soon declined on selling by local traders, influenced by the weakness of other grains. Traders who bought early in the week on damage reports from the west were conspicuous in the selling. Receipts were 151 cars. September ranged from 24% to 24% and closed 45% to lower at 24% c.

Provisions, though rather dull, showed steadiness throughout the session. Hog receipts were light and the cash demand for meats was good and prices were well sustained, even when the grain markets were at their weakest. Fluctuations were unimportant. At the
